ABOUT LC SIGN

LC SIGN, YOUR TRUSTED
SIGNAGE PARTNER

ILLUMINATING BRANDS BUILDING LEGACIES

At LC Sign, we believe signs are more than mere indicators—they are the silent ambassadors of your brand's story. For over a decade, we've partnered with visionaries across the globe, transforming commercial spaces into memorable experiences through precision-engineered signage solutions.

Core Values: Custom, Creative, Leading

LC Sign's growth is driven by three foundational principles:

- **Custom:** Every signage solution is built uniquely for each brand's identity, environment, and visual strategy.
- **Creative:** The company integrates light, color, materials, and spatial design to create signage with both functional clarity and emotional impact.
- **Leading:** LC Sign continues to push industry standards in craftsmanship, sustainability, engineering, and digital manufacturing.

As your strategic signage partner, we don't just manufacture products—we craft the visual language that connects your brand to its audience, one illuminated sign at a time.

COMPANY PROFILE

LC SIGN, YOUR TRUSTED SIGNAGE PARTNER

FACTORY

- Ex 15 Years Industry
- UL Experience UL listed
- CE CE Certified, Quality Assured

Headquartered in Guangzhou, China, LC Sign is a prominent large-scale enterprise specializing in high-end visual identity. The company engineers custom LED signs, neon signs, pylon signs, light boxes, architectural signage, and commercial branding systems.

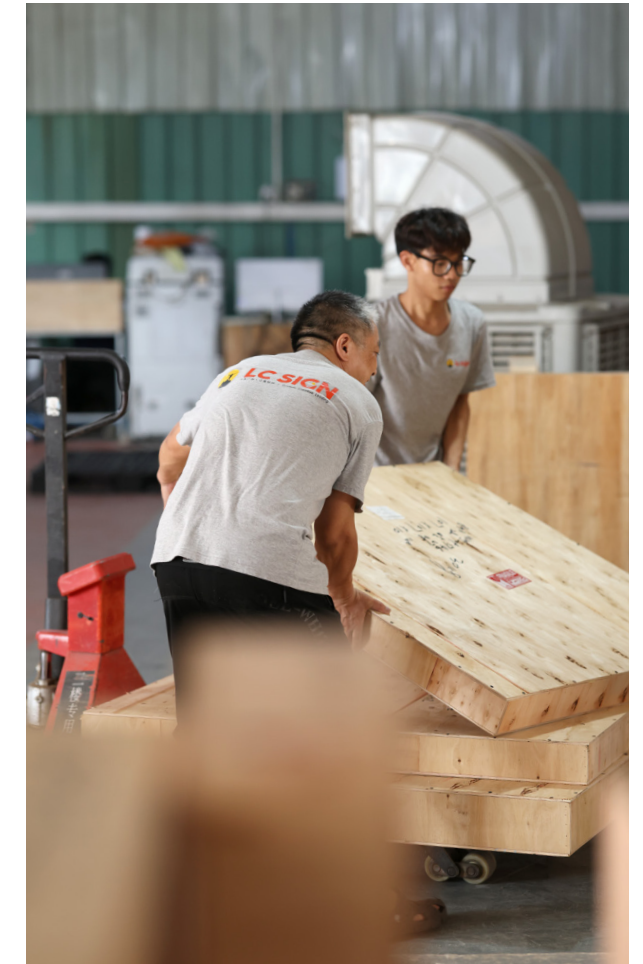

Spanning 22,000m², the Company integrates Production, R&D, Design, Foreign Trade, Marketing, Finance, and HR & Administration departments. Equipped with cutting-edge facilities, the Company ensures all products strictly meet international quality and certification standards.

Since its inception in 2011, the Company has been driven by the core principle of "Rigorous Quality Control and Meticulous Service." This commitment has earned the enduring trust of international advertising agencies, signage distributors, and global chain brand operators. Today, LC Sign provides premium branding solutions to over 160 countries across Europe, North America, Australia, the Middle East, Asia, and South America.

2018-2022 EMPOWERMENT

2018 | Industrial Leap:

Automated production
launched; achieved UL, CE,
and ISO certifications.

2020 | Smart Signage:

Ranked global leader in Neon;
secured IoT technology patents.

2021-2022

Digital Evolution & Capacity Surge:

Integrated Lean Management with high-pre-
cision Ricoh G6 printing, while expanding
CNC and Laser production for high-volume,
complex projects.

2023-2024 DISRUPTION

Media Amplification & MaaS™ Launch:

Gained CCTV recognition and scaled
digital footprint, while expanding facilities
to 22,000m² and pioneering the Manufac-
turing as a Service (MaaS™) model.

2025-2026 THE FUTURE

Ecosystem & Intelligence Expansion:

Advanced industry influence with 10M+
followers and R&D Lab establishment,
while driving global leadership through
AI-powered digital signage innovation.

2017 | Vertical Integration:

Relocated to Guangzhou;
expanded to 7,000m²
"Design-to-Manufacture" hub.

2014 | Global Debut:

Shenzhen base opened;
international debut at Euro-
Shop Germany.

2011 | Brand Inception:

LC Sign founded with a global
vision for visual identities.

2011-2017 | FOUNDATIONS

OUR CORE TEAMS

At LC Sign, our strength comes from people—designers, engineers, communicators, and business specialists—working as one. Across every team, we are guided by three principles: Custom. Creative. Leading.

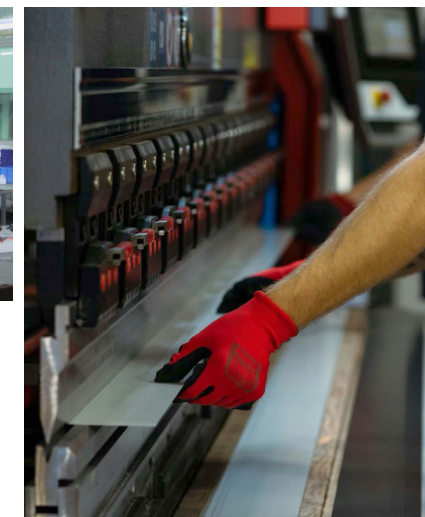

SOCIAL MEDIA TEAM

CREATIVE LEADERSHIP, GLOBAL INFLUENCE

Led by Tony Zhu, Chief Marketing Officer of LC Sign, the Social Media Team drives the brand's global visibility through strategic storytelling and creative content. By translating real products, real projects, and real craftsmanship into engaging narratives, the team connects LC Sign with audiences worldwide—demonstrating that professional manufacturing brands can communicate with creativity, relevance, and impact.

Brand IP: T • Tony™

ENGINEERING TEAM (R&D & Engineering)

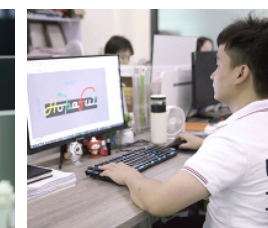

CREATIVE IDEAS, PRECISELY ENGINEERED

The Engineering Team turns design concepts into reliable, real-world products. With strong R&D capabilities and deep manufacturing knowledge, they ensure every sign meets high standards of durability, structure, and performance. Developing over 15 new products each month, the team supports clients with forward-looking, customized innovations—helping them expand product lines, respond to market trends, and stay competitive. From illuminated systems to complex installations, engineering precision defines every solution.

PHILOSOPHY OF OPERATION

Pragmatism-rooted
Effectiveness-based
Innovation-driven

BUSINESS TEAM

(Service & Partnerships)

CUSTOM SOLUTIONS, TRUSTED PARTNERSHIPS

The Business Team builds long-term partnerships by focusing on tailored solutions rather than standard offerings. Guided by the philosophy of “Customer First, Win-Win Cooperation,” they manage projects with clarity, responsiveness, and accountability. Providing end-to-end service—from pre-sale technical support to in-production transparency and responsive after-sales assistance—the team ensures every collaboration reflects LC Sign's commitment to quality, reliability, and professional service.

DESIGN TEAM

CUSTOM THINKING, CREATIVE PRECISION

The Design Team is where every LC Sign project begins. With expertise in typography, materials, lighting, and spatial context, designers approach each project as a unique challenge rather than a fixed template. Through close collaboration with sales, marketing, and production, the team delivers refined, customized designs that integrate seamlessly into their environment while maintaining a clear visual identity.

CUSTOM NEON SIGNS

Neon signs are more than lighting—they're emotive art that captures atmosphere. True craft lies in seamless, vibrant color and enduring glow. We blend hand-bent glass with modern gas and transformer tech to ensure rich, uniform illumination that stays vivid over time. Whether for retail, hospitality, or personal expression, we create luminous signatures that don't just light up—they speak.

CUSTOM LIGHT BOXES

A light box transforms graphics into compelling visual narratives. Beyond brightness, true excellence lies in uniform, glare-free illumination and long-term color consistency. We engineer each unit as a precision optical system—using high-transmission acrylics, calibrated edge-lit LED arrays, and robust construction. For retail displays, corporate environments, or outdoor advertising, we deliver vibrant, attention-commanding visuals that endure.

WAYFINDING SIGNAGE

Wayfinding signage is a landmark, defining skylines and anchoring brand identity at scale. The real challenge is balancing monumental visual impact with lasting resilience against wind, weather, and time. We engineer every structure as a complete statement. Through robust internal framing, aerodynamic design, and high-performance cladding, we ensure unwavering stability, striking visibility, and generational durability. For highway guidance or plaza dominance, we deliver iconic authority that stands the test of time.
