

LC SIGN LIGHTBOX COLLECTION

L i g h t i n F o r m

Light, Made Visible.

At LC SIGN, a lightbox is more than an illuminated surface.

At LC SIGN, a lightbox is more than an illuminated surface. We bring together form, material and light to create signage that is clear in purpose, refined in detail and distinctive in space.

From custom forms to versatile display systems, every lightbox is designed to make brands seen.

FORM • LIGHT • CRAFT

Light. Form. Space.

Light gives a sign presence | Form gives it character | Space gives it context

We bring all three together to create illuminated signage that feels balanced, distinctive and made to belong.

LIGHT Controlled.
Even. Considered.

FORM Defined by
proportion and detail.

SPACE Designed
to belong.

ABOUT LC SIGN

LC SIGN is a global signage manufacturer with over 15 years of experience in custom signage and illuminated solutions.

Combining design, engineering and precision manufacturing, we develop lightboxes for retail, hospitality, commercial and architectural environments, supporting projects across global markets from concept through production and delivery.
