FREESTANDING SIGNAGE LC Sign

Made for the Place.

A freestanding sign is never viewed in isolation.

It stands within architecture, landscape and movement — identifying places, guiding people and shaping first impressions.At LC Sign, we create freestanding signage designed to belong to the environment it serves.

ABOUT LC SIGN

LC Sign is a global signage manufacturer with over 15 years of experience in custom signage and architectural sign systems.

From monument and pylon signs to monoliths, directional systems and information kiosks, we develop custom freestanding signage for commercial, hospitality, corporate and public environments. Combining design, engineering and precision manufacturing, we support projects from design development through production and delivery.
